## f. Any restrictions or impediments on transfer of funds or regulatory capital within the banking group:

There is no restriction or impediments on transfer of funds or regulatory capital within banking group as of September 30, 2025.

#### **TABLE DF-2: Capital Adequacy**

#### **Qualitative Disclosures**

(a) The Bank is carrying out quarterly risk assessment for Credit, Market and Operational Risks and computing CRAR as well as also providing a comfortable cushion against the risk of losses against any unforeseen events. Bank is monitoring regularly and comprehensively the capital requirement through Capital Planning and Budgeting for current as well as future business operations. Moreover, bank is addressing all risks through precise Internal Capital Adequacy Assessment Process (ICAAP) annually and maintaining necessary additional capital for additional risks.

The Bank has following Standardized Approach for Credit Risk, Basic Indicator Approach for Operational Risk and Standardized Duration Approach for Market Risk for computing CRAR, as per the regulatory guidelines.

#### Table DF-3: Credit Risk: General Disclosures for All Banks

#### **Qualitative Disclosure**

#### a) Past Due and Impaired Accounts (for accounting purpose):

In terms of Bank's NPA Management Policy duly approved by the Board of Directors, an asset is treated as Past due/impaired asset where –

- i. Interest and/or installment of principal remain overdue for a period of more than 90 days in respect of a term loan.
- ii. The account remains 'out of order' for a period of more than 90 days as given in para below, in respect of an overdraft/cash credit (OD/CC).
- iii. The bill remains overdue for a period of more than 90 days in the case of bills purchased and discounted,
- iv. The installment of principal or interest thereon remains overdue for two crop seasons for short duration crops.
- v. The installment of principal or interest thereon remains overdue for one crop season for long duration crops.

#### An account is considered out of order when

- i. The outstanding balance remains continuously in excess of the sanctioned limit/drawing power; the account is treated as out of order.
- ii. The balance outstanding is less than the sanctioned limit/drawing power but there are no credits continuously for 90 days or the credits are not sufficient to cover the interest debited.

#### b) Bank's Credit Risk Management Policy:

Bank's Credit Risk Management practices are based on policy directives duly approved by the Board which, inter-alia, encompasses the following:

- i. Credit Risk acquisition strategies & policies,
- ii. Credit approval processes.
- iii. Credit Risk monitoring processes.
- iv. Credit Risk control processes.

Board of Directors has overall responsibility for management of Credit risk and Risk Management Committee of the Board is responsible for setting up guidelines for Credit Risk Management and reporting, ensuring that Credit Risk Management processes conform to the policy, setting up prudential limit and its periodical review and ensuring robustness of risk modules. Credit Risk Management Committee is responsible to deal with issues relating to Credit policy and procedures and to analyze monitoring and control credit risk on bank wide basis.

Credit Risk Management Department of the Bank enforces and monitors compliance of the risk parameters and prudential limits set by the Bank. They also lay down risk assessment system, monitor quality of loan portfolio, identify problems and correct

deficiencies, develop MIS for the purpose including portfolio evaluation. Credit Risk Management Department is independent of Credit Processing & Credit Monitoring Departments.

Assessment of Credit Risk is done through rating of credit accounts. The bank has a system of rating all accounts (excepting those under schematic lending) having exposure of above Rs 25 lacs. Bank tracks rating migration and has developed internal default rates across rating. The mapping of default rates is also carried out with default rate of established rating agencies.

The bank makes all possible efforts to mitigate risks associated with credit accounts through suitable collaterals or guarantors wherever it is considered feasible and desirable. In addition to that, terms and conditions under which credit is sanctioned also go a long way to mitigate risks associated with credit. Regular monitoring and control of accounts also add to the risk mitigation. In order to mitigate risk, the Bank has taken necessary cover for eligible accounts from Export Credit Guarantee Corporation and Credit Guarantee Fund Trust for Micro and Small Enterprises.

#### Table DF-4 - Credit Risk: Disclosures for Portfolios Subject to the Standardised Approach

#### **Qualitative disclosure**:

Credit rating accorded by the following credit rating agencies has been used in assigning risk weights to our credit accounts under standardized approach:

- 1) CARE
- 2) CRISIL
- 3) India Ratings
- 4) ICRA
- 5) Acuite Rating
- 6) Infomerics
- 7) FITCH
- Rating agencies have rated corporate exposures.
- In assigning rating to accounts based on public issue rating given by the abovementioned rating agencies, bank has followed the guidelines of Reserve Bank of India.

#### **Quantitative disclosure**:

#### **Exposure after risk mitigation in standardized approach:**

1) Below 100% risk weight - 311727.48Cr.
2) 100% risk weight - 29703.10 Cr.
3) More than 100% risk weight - 11103.55 Cr.
4) Deduction - 0.00 Cr.

Total - 352534.13 Cr.

#### <u>Leverage Ratio</u>

The Basel III leverage ratio is defined as the capital measure (Tier-1 capital of the risk-based capital framework) divided by the exposure measure, with this ratio expressed as a percentage. As per RBI guidelines, the Basel III leverage for the Bank as at September 30, 2025 is as follows

Sr.	Particulars	Amount	Amount	Amount	Amount	Amount
No		30.09.2025	30.06.2025	31.03.2025	31.12.2024	30.09.2024
1	Tier-1	24634.66	24376.39	24182.47	19657.00	19415.87
	Capital (A)					
2	Exposure	380098.13	377158.99	372516.66	354209.20	338308.24
	Measure					
	(B)					
3	Leverage	6.48%	6.46%	6.49%	5.55%	5.74%
	Ratio (A/B)					

#### Table DF-5: Credit Risk Mitigation: Disclosures for Standardised Approaches

#### Qualitative disclosure:

# (a) Policies and processes for, and an indication of the extent to which the bank makes use of, on and off-balance sheet netting

#### Credit risk mitigation techniques- On Balance Sheet netting

The Bank computes capital requirements on the basis of net credit exposure subject to the conditions that the bank

- i) has a well-founded legal basis for concluding that the netting or off setting agreement is enforceable in each relevant jurisdiction regardless of whether the counterparty is insolvent or bankrupt;
- ii) is able any time to determine loans/advances and deposits with the same counterparty that are subject to the netting arrangement;
- iii) monitors and controls the relevant exposures on a net basis;

Loans and advances are treated as exposure and deposits are treated as collaterals.

#### Credit risk mitigation techniques- Guarantees

- i) Guarantees should be direct, explicit, irrevocable and unconditional.
- ii) Substitution approach will be applied. Thus, guarantees issued by entities with lower risk weight than the counterparty will lead to reduce capital charge since the protected portion of the counterparty exposure is assigned the risk weight of the guarantor, whereas the uncover portion retain the risk weight of the underlying counterparty.
- iii) Operational requirement for guarantees must be met.
- iv) Range of eligible guarantors (counter guarantors)

Credit protection given by the following entities will be recognized:

- a) Sovereigns, sovereign entities (including BIS, IMF, European Central Bank, MBDs, SCGC and CGTSME), Banks and Primary dealers with a lower risk weight than the counter party:
- b) other entities rated AA- better. This would include guarantee covered provided by parent, subsidiary and affiliated companies when they have a lower risk weight than the obligor.
- v) Protected portion is assigned the risk weight of the protection provider.

#### (b) Policies and processes for collateral valuation and Management

As a banker we are concerned with market value of the property that can be expected from a buyer if the property is put to sale. So valuation is made by Asset Valuation Methodology which takes into consideration the market value of tangible assets taken as security.

#### Method of valuation of various types of securities:

#### (i) Valuation of land and building

All landed properties must be valued by Registered valuers who are in the current empaneled list of Bank. The value of the land will be assessed separately and would be compared with valuation on record by Govt. Authorities including Municipal Bodies. Construction on the said land would be valued separately and compared with value of insurance taken to cover the said property.

The following points are taken into consideration:

- i) Nature of construction
- ii) Age of the building and its present strength
- iii) Rental yield
- iv) Tax amount assessed/paid
- v) Area of land and building
- vi) Cost of construction
- vii) Value of site

#### (ii) Valuation of Movable properties:

In valuation of hypothecated/pledged assets, basis of valuation is invoice price or market price whichever is lower.

#### (iii) Valuation of shares:

Market value is calculated as below:

- a) Current market price of the share
- b) Average of high and low prices of security during last 52 weeks whichever is lower. In case of units of mutual funds (only Master Share has been included in the approved list) Net Asset Value (NAV)/Repurchase price or the market price, whichever is less, has to be taken.

#### (iv) Valuation of LIC Policy:

#### Present surrender value of the policy

Whatever security is obtained, care should be taken to see that it is adequately charged and all necessary legal formalities are completed so that it can be realized without any difficulty, whenever an emergency arises. Moreover, during the lifetime of an advance constant watch over the security is necessary.

#### (c) Main types of collateral taken by Bank are –

i) Equitable Mortgage/ Registered Mortgage of immovable properties like land and building.

- ii) Hypothecation of movable fixed assets like plant & machinery furniture/fixtures.
- iii) Pledge of shares/debentures/equities/units of Mutual Funds
- iv) Assignment of LIC Policies
- v) Lien over Bank's own Fixed Deposit receipts
- vi) Pledge of NSCs/KVPs

#### (d) The main types of guarantor counterparty and their credit worthiness

Normally Bank insists on following types of guarantor counterparty-

- i) Personal guarantee of partners/non-professional directors/third parties,
- ii) Corporate Guarantee
- iii) Guarantees of State Government

The bank may also obtain guarantees at its discretion from parent/holding Company when credit facilities are extended to borrowing units in the same group.

When personal guarantees are warranted, they should bear reasonable proportion to the estimated worth of the person.

#### (e) Information about credit risk concentrations within the mitigation taken –

In order to mitigate the credit risks, exposures are collateralized in whole or in part by cash, securities, deposits from the same counterparty, guarantee of a third party.

Market risks arise from movements in market prices which are mitigated through sales contacts, consumer financing, buy back clause and deficiency agreement.

#### Quantitative disclosure:

Total exposure covered by eligible financial collaterals after application of haircut under standardized approach- Rs. 22196.76 Cr.

### Table DF-6: Securitisation Exposures: Disclosure for Standardised Approach

Not Applicable as UCO Bank is not having any securitization exposure.

#### TABLE DF-7: Market Risk in Trading Book

#### **Qualitative Disclosure:**

#### 1. Objective & Policies:

To limit the market risk in Investment and Forex instruments. For this the Bank adopted policies approved by the Board for Domestic as well as Overseas Branches.

#### 2. Strategies and Processes:

Policy provides various limits on exposures. Local ALCO Committee of overseas centers takes care of strategies and processes as per approved policy for overseas centers.

#### 3. Structure and organization of the relevant risk management function:

Investment decisions are taken by Corporate Investment Committee comprising of Executive Director, General Managers of Corporate Credit, Finance, Risk Management, International and Treasury Branch, Mumbai. At overseas centers local committee under Chief Executives of the centers takes decision as per guidelines approved by the Board. The Bank has front office, mid office and back office for strict functional segregation. Risk Management Department at Head Office performs the function of mid office for overall portfolio.

#### 4. The scope and nature of risk reporting and/or measurement system:

Periodic Reporting of full details of Bank's exposure undertaken by the domestic and overseas branches are sent to Head Office. Quarterly reporting with evaluation of risks are also made. Any breaches from various prudential and other limits fixed by the Bank are also referred to H.O for necessary approval.

# 5. Policies for hedging and/or mitigating risk and strategies and processes for monitoring the continuing effectiveness of hedge/s militants:

The Bank's policy is to maintain near square position in Forex. However various limits like daylight, overnight in respective currencies as well as overnight open position limit in Indian rupees for the Bank as a whole have been fixed and the same is monitored through periodic reporting.

#### **Quantitative Disclosures:**

Capital requirements for:	(Rs. in crore)
Interest Rate Risk	65.29
Equity Position Risk	121.14
Foreign Exchange Risk	35.35

#### Table DF – 8 - Operational Risk

#### **Qualitative disclosure**

The Bank has put in place systems, processes and monitoring mechanism for -

- Identification and assessment of operational Risks inherent in all material products, activities, processes and systems,
- Monitoring operational risk profiles and material exposure to losses and reporting pertinent information to Senior Management and Board of Directors.
- Framing policies, processes and procedures to control and mitigate material operational risk.

The Organizational set up for operational risk management is as follows:

- The Board of Directors
- Risk Management Committee of the Board (RMCB)
- Operational Risk Management Cell (ORMC)
- Business Operational Risk Managers (BORM)
- Risk Management Department

Board of Directors approves Operational Risk Management framework, implementation and policies, processes and procedures for managing operational risk in all products, activities, processes and systems.

Scope and nature of Risk Reporting and/or measurement system:

All financial departments/business units have been informed to keep the RMD fully informed of new developments, initiatives, products and operational changes to identify all associated risks at an early stage.

The Bank has been collecting the relevant operational risk loss data loss event types to meet the requirement of New Standardized Approach. Bank has obtained membership of CORDEx for accessing the external loss data.

As per RBI directives, the bank has been maintaining capital for operational risk under Basic Indicator approach (BIA). The capital requirement as per BIA is Rs.2508.25 crores as on 30.09.2025.

#### Table DF-9: Interest Rate Risk in the Banking Books (IRRBB)

#### Qualitative disclosure:

Bank has in place Asset Liability Management policy that addresses issues related to Interest rate risk in Banking Books. Bank draws every month statement of Interest Rate sensitivity in accordance with the guidelines given by Reserve Bank of India for the purpose and estimates of Earnings at Risk (EaR) for the remaining period of the current financial year and as well as over one year horizon. Bank also draws every month statement of modified duration in accordance with the guidelines given for this purpose by Reserve bank of India and estimates Equity Var. Both the statements are reviewed by Bank's Asset Liability Management Committee/ Risk management Committee of the Board.

#### Quantitative disclosure:

- 1) Estimated increase (decline) in earnings for Downward (upward) rate shock of 100 basis point + Rs. 722.30 Cr.
- 2) Estimated increase (decline) in economic value for Downward (upward) rate shock of 200 basis point + Rs. 1444.60 Cr.

#### Table DF-10: General Disclosure for Exposures Related to Counterparty Credit Risk

#### **Qualitative Disclosures**

i) The Structure and organization for management of risk in derivatives trading:

The organization structure consists of Investment Wing at the Corporate level which report to the Executive Directors and Chairman & Managing Director and ultimately to the Board. Risk Management Department is informed of the transactions as and when they take place.

- ii) The scope and nature of risk measurement, risk reporting and risk monitoring systems:
  - a) The Interest Rate Swap (IRS) transactions undertaken by the Bank are for hedging and trading purposes. Derivative as a product is also offered to the customer as per RBI norms. Such transactions are undertaken as per policies of the bank formulated based on RBI guidelines.
  - b) The risk is measured in the interest rate derivative transactions depending on the movement of benchmark interest rates for the remaining life of the interest rate swap contracts. All interest rate derivative transactions are included for the purpose of risk measurement. The risk is evaluated and reports are placed to the CMD / ED daily and Board periodically. Risk is monitored based on the mark to market position of the interest rate derivative transactions.
- (iii) Policies for hedging and /or mitigating risk and strategies and processes for monitoring the continuing effectiveness of hedges/ mitigants:

IRS is undertaken on the actual interest-bearing underlying assets or liabilities. The notional principal amount and maturity of the hedge does not exceed the value and maturity of underlying asset/liability. The risk is monitored on the mark to market basis of the outstanding interest rate swap contracts and accordingly the effectiveness of the hedge is determined. Collateral required upon entering into IRS is Nil. Notional principal amount of IRS multiplied by the relevant conversion factor and the respective risk weight of the counter party has been taken into account for determining the capital requirements.

### <u>Table DF-15</u> <u>Disclosure Requirements for Remuneration</u>

Not applicable to Nationalised Banks.

#### Table DF-16: Equities – Disclosure for Banking Book Positions

#### **QUALITATIVE DISCLOSURES**

- In accordance with the RBI guidelines on investment classification and valuation, Investments are classified on the date of purchase into Held for Trading (HFT), Available for Sale (AFS) and Held to Maturity (HTM) categories. Investments which the Bank intends to hold till maturity are classified as HTM securities. In accordance with the RBI guidelines, equity investments held under the HTM category are classified as banking book for capital adequacy purpose.
- ➤ Investments in equity of subsidiaries and joint ventures are required to be classified under HTM category in accordance with the RBI guidelines. These are held with a strategic Objective to maintain relationships for business purposes.
- ➤ Investments classified under HTM category are carried at their acquisition cost and not marked to market. Any diminution, other than temporary, in the value of equity investments is provided for. Any loss on sale of investments in HTM category is recognized in the Statement of Profit and Loss. Any gain from sale of investments under HTM category is recognized in the Statement of Profit and Loss and is appropriated, net of taxes and statutory reserve, to "Capital Reserve" in accordance with the RBI Guidelines.

#### **QUANTITATIVE DISCLOSURES**

#### A. Value of Investments

(Rs. in Crore)

Investments	Value as per Balance Sheet	Fair Value	Publicly Quoted Share Values (if materially different from fair value)
Unquoted	761.18	706.52	NA
Quoted	424.27	416.96	NA

#### B. Types and Nature of Investments

(Rs. in crore)

Investments	Publicly traded	Privately held
Subsidiary, Associate and Joint Ventures (for		0.00
RRBs)		
Other shares of PSU/Corporate, which were in		761.18
the books of the Bank under Banking Book		
category as on 12th September 2023 and as per		
RBI guidelines, can be retained as such.		

#### C. Gain/ Loss Statement

(Rs. in crore)

Particulars	Amount
Cumulative realized gains (losses) arising from sales and	-

liquidations in the reporting period	
Total unrealized gains (losses)	54.59
Total latent revaluation gains (losses)	
Unrealized gains (losses) included in Capital	-
Latent revaluation gains (losses) included in Capital	-

## D. Capital Requirement for Banking Book

(Rs. in crore)

Equity grouping	Treatment under Basel III	Capital Requirement
Subsidiary	Deducted from Regulatory capital	0.00
Associate and Joint Ventures	Risk weighted @ 250%	0.00
Other shares of PSU/Corporate, which were in the books of the Bank under HTM category as on 2nd September 2004 and as per RBI guidelines, can be retained as such.	Risk weighted @ 150%	0.00
